

Domestic Cleaning Poles UK

Suppliers of window cleaning poles

WATER FED POLE INSTRUCTIONS

POLE READY FOR ASSEMBLY

The pole will arrive straight out of the packaging with the tee connector ready for quick assembly.

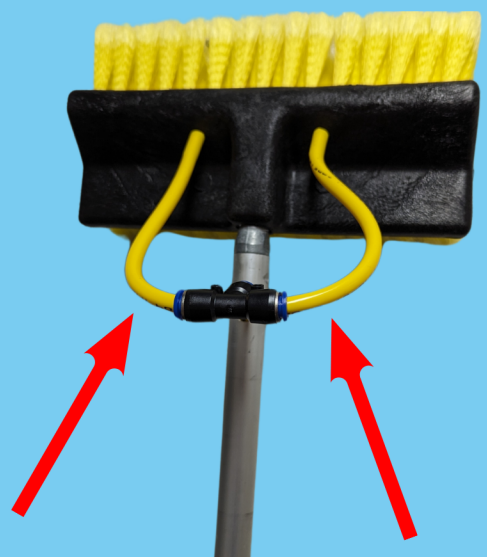

ATTATCH THE BRUSH

Screw the brush head onto the pole with the 2 yellow hoses facing towards the tee connector.

CONNECT THE BRUSH HOSE

Connect the 2 yellow hoses into the left & right side of the push connector.

To remove the hoses just push the blue part of the tee connector and pull the hose out towards you.

HOSELOCK CONNECTOR

Connect the hoeslock connector to a standard hosepipe then you are ready to use.

We also provide a orange isolator shut off valve on every hose fed pole so please make sure its in the on position for water to flow to the brush head, then off to isolate to save you having to turn off the outside tap.
